- Matthew Miller

Centralized warehouse management is a key investment for our business. Our integrated warehouses are strategically located for optimal efficiency. One of the hallmarks of our integrated warehouses is our central system and modern warehousing software, which enables efficient inventory control and circulation. Our integrated warehouses handle a high volume of daily loading for our projects throughout Iraq and Kurdistan. This is why we place such a high priority on software systems, human resources, equipment, and machinery in our logistics operations.

Boss Transportation ensures the timely and secure delivery of purchase orders, considering the sales department's weekly and daily schedules and maintaining strict warehouse inventory control. With precise programs, up-to-date warehouse systems, and cutting-edge logistics equipment, we guarantee our ability to provide transportation and distribution services for large governmental and private projects. Boss has collaborated with the world's leading office furniture brands for years. Through meticulous planning, we have transcended our role as exclusive representatives in Iraq to become strategic partners. We are proud to announce that, through close collaboration with top international brands, Boss can deliver the largest governmental and private projects to the highest standards in the fastest possible time.
